

Remuneration Disclosure

For the Fiscal Year Ended October 31, 2024

Introduction

The following document outlines the remuneration practices for the TD Securities entities in London, United Kingdom, which include The Toronto-Dominion Bank London Branch (London Branch) and TD Bank Europe Limited (TDBEL), collectively defined herein as “TD Securities London”.

Remuneration Governance and Policies

Oversight of remuneration at TD Bank Group (“TD”) globally is a key function of the Human Resources Committee (“TD HRC”) of the TD Board of Directors. Additional regional oversight of remuneration for employees of TD Securities in Europe and Asia-Pacific is provided by the International Remuneration Committee (“IRC”). The TDBEL Remuneration Committee of the TDBEL Board of Directors provides additional local oversight over remuneration for employees and Material Risk Takers of TDBEL.

The following provides an overview of the TD HRC, the IRC and the TDBEL Remuneration Committee.

TD Bank Group Human Resources Committee

The TD HRC is the committee of the TD Board of Directors that is responsible for overseeing TD’s total rewards programs including remuneration (i.e., variable incentives, including deferred remuneration), retirement (including defined benefit pension plans and defined contribution plans) and benefits programs on a global basis. In addition, the TD HRC oversees the bank’s talent management and succession planning process for the senior-most executives of the bank, as well as reviewing and recommending objectives and evaluating the performance of the Chief Executive Officer (CEO) of the bank.

Committee Composition

In keeping with governance best practices, the TD HRC is composed entirely of independent directors who are knowledgeable about issues related to human resources, leadership, talent management, remuneration, governance and risk management. To assist in executing its responsibilities, the TD HRC hires an independent remuneration advisor who reports solely to the TD HRC and does not provide any services to management.

International Remuneration Committee

The IRC is a regional Committee that has been authorised to assist regional management and subsidiary Boards in fulfilling their corporate governance and oversight responsibilities in relation to the remuneration policies and practices for TD Securities businesses and TD Representative Offices in the Europe and Asia-Pacific regions.

The IRC is responsible for demonstrating that remuneration policies and practices:

- Are aligned with the business and compensation strategy;
- Are consistent with risk strategy;
- Are compliant with regulatory expectations and best practices; and
- Enable TD Securities entities in the Europe and Asia-Pacific regions to attract, retain, and motivate high performing personnel, to create sustainable value for shareholders over the long term.

As part of its oversight responsibilities, the IRC is responsible for reviewing and approving: the Remuneration Policy; the listings of Material Risk Takers; individual remuneration for certain Material Risk Takers (senior management, heads of control functions and/or any individual earning £1 million or more); and, the aggregate incentive awards for TD Securities Europe and Asia-Pacific employees.

The IRC met three times in 2024.

Committee Composition

The IRC is composed of at least three members, all of whom are independent of the day-to-day management of the TD Securities business in the Europe and Asia-Pacific region. No individual is involved in decisions relating to their own remuneration.

The Committee may engage external advisors for independent advice and counsel. In fiscal 2024, the Committee did not engage any external advisors.

TDBEL Remuneration Committee

The TDBEL Remuneration Committee is the Committee of the TDBEL Board of Directors that has been authorised to assist the TDBEL Board in fulfilling its governance and oversight responsibilities in relation to remuneration policy, practices and awards.

The Committee has responsibility for the adoption, operation and effective oversight of formal and transparent remuneration policy and practices within TDBEL, in particular, demonstrating that remuneration and compensation practices are:

- Aligned with the business and compensation strategy;
- Consistent with risk strategy;
- Compliant with applicable law, regulation, and prudential rules; and,
- Enable TDBEL to attract, retain and motivate high performing personnel, to create sustainable value for the shareholder over the long-term and take into account the interests of other long-term stakeholders

As part of the oversight responsibilities, the Committee is responsible for reviewing and approving: the TD Securities London Remuneration Policy; the policy for identifying TDBEL Material Risk Takers (and annually reviewing the listing of TDBEL Material Risk Takers); individual remuneration for TDBEL Material Risk Takers; and, the aggregate incentive awards for TDBEL employees.

The Committee met three times in 2024.

Committee Composition

Membership of the Committee is composed of three independent non-executive directors. The Chair of the TDBEL Remuneration Committee is approved as Senior Management Function 12 (chair of remuneration committee function). The Committee has a broad range of skills, expertise and experience relevant to the wholesale banking and financial services sector.

The Committee may seek independent advice on any matter within its mandate. In fiscal 2024, the Committee did not engage any external advisors.

Remuneration Policy

The IRC and the TDBEL Remuneration Committee annually review and approve the Remuneration Policy for TD Securities London, which includes a summary of the remuneration policies, procedures, and related governance processes that are applicable to TD Securities London employees. In 2024, the Remuneration Policy was updated to reflect the new internal bonus cap ratio of five times fixed remuneration beginning for fiscal 2024 performance. This is a change from the previous bonus cap ratio where variable incentives could not exceed 100% of fixed remuneration. While the increased bonus cap ratio will provide flexibility in establishing remuneration structures for Material Risk Takers, we anticipate that TD Securities London will generally operate at a lower bonus cap ratio. The Remuneration Policy was last approved by both the IRC and the TDBEL Remuneration Committee in June 2024.

Material Risk Takers

Employees that can have a material impact on TD Securities London's risk profile are identified as Material Risk Takers. As part of that process, employees are assessed against the qualitative and quantitative criteria for identifying material risk takers set out in the European Banking Authority's (EBA) Draft Regulatory Technical Standards (RTS) on MRT identification published in June 2020 which have also been incorporated into the Remuneration Part of the Prudential Regulation Authority (PRA) Rulebook.

The process and criteria for identifying TD Securities London Material Risk Takers is outlined in a Material Risk Taker Determination document which is presented annually to the IRC and TDBEL Remuneration Committee for their review and approval.

To ensure Material Risk Takers are appropriately identified, the IRC and TDBEL Remuneration Committee review and approve the listing of TD Securities London Material Risk Takers and TDBEL Material Risk Takers, respectively, on at least an annual basis or as necessary to approve changes.

Design and Structure of Remuneration for Material Risk Takers

Remuneration for Material Risk Takers consists of fixed pay, variable incentive pay (non-deferred and deferred incentives) and pension and benefits.

Beginning in fiscal 2024, all Material Risk Takers are subject to a bonus cap, where variable incentives cannot exceed five times fixed remuneration. Previously, Material Risk Takers were subject to a bonus cap where variable incentives could not exceed 100% of fixed remuneration.

Elements of Remuneration

For the majority of employees, fixed remuneration includes base salary only. For certain expatriate employees, fixed remuneration also includes a role-based allowance which has been structured to align with requirements outlined in the EBA's Guidelines on Sound Remuneration Policies. TD ensures that fixed remuneration is sufficient to maintain an appropriate balance between fixed and variable remuneration.

All variable incentive pay is dependent on the achievement of financial and non-financial measures at the bank, segment, team and individual level (additional details on the metrics in the different incentive plans is provided further below). All variable incentive pay includes consideration of adherence to effective risk management at both the plan and individual level.

Variable incentive pay is delivered in two parts – non-deferred incentives and deferred incentives. Variable incentive pay awarded to Material Risk Takers is structured to align with the remuneration requirements outlined in the Remuneration Part of the PRA Rulebook.

For the 2024 performance year, the following will generally apply to variable remuneration awarded to Material Risk Takers in accordance with the regulations:

- At least 40% of a Material Risk Taker's variable remuneration will be deferred over a minimum period of four years depending on the category of Material Risk Taker (see table below).
- Non-deferred variable remuneration will be delivered 50% in cash and 50% in share-based awards (e.g., Restricted Share Units), which are subject to a 12-month retention period.
- Deferred variable remuneration will be delivered 50% in deferred cash and 50% in share-based awards (e.g., Restricted Share Units), subject to a minimum 12-month retention period (with the exception of share-based awards deferred for 5-years or longer made to Material Risk Takers who are not senior management, which are subject to a 6-month retention period) in line with the regulations.

Deferral Requirements by Material Risk Taker Category

For certain categories of Material Risk Takers, deferral requirements are differentiated between those who meet the criteria of "Higher Paid Material Risk Taker" and those who do not meet the criteria of "Higher Paid Material Risk Taker".

Higher Paid Material Risk Taker is defined as an individual whose (i) annual variable remuneration exceeds 33% of their total remuneration, or (ii) total remuneration exceeds £500,000.

For the 2024 performance year, the following deferral requirements applied to Material Risk Takers.

MRT	Higher Paid Material Risk Taker		Not Higher Paid Material Risk Taker	
	Deferral / Vesting Period	Retention Period*	Deferral/Vesting Period	Retention Period*
PRA Regulated Senior Management Function (SMF)	7-Year deferral , with no vesting to take place until three years after the award, and pro-rata vesting thereafter	12 months	5-Year deferral , with pro-rata vesting (20% per year)	12 months
FCA Regulated SMF (solely)	5-Year deferral , with pro-rata vesting (20% per year)	12 months	5-Year deferral , with pro-rata vesting (20% per year)	12 months
Senior Staff / Management (not SMF) ¹	5-Year deferral , with pro-rata vesting (20% per year)	6 months ²	4-Year deferral , with pro-rata vesting (25% per year)	12 months
All other MRTs	4-Year deferral , with pro-rata vesting (25% per year)	12 months	4-Year deferral , with pro-rata vesting (25% per year)	12 months

* Applicable to deferred share-based awards. Non-deferred share-based awards are subject to 12-month retention period.

¹ Applies to individuals who do not perform a Senior Management Function and who meets the following criteria set out in the Remuneration Part of the PRA Rulebook: criteria in 3.1(1)(a) or (b); or (ii) whose professional activities meet the qualitative criteria set out in 3.2A(1), 3.2A(2) or 3.2A(5).

² Members of the UK Management Committee are subject to a 12-month retention period.

Deferred incentives are delivered through share units (e.g., Restricted Share Unit Plan and Long-term Compensation Plan) and a Deferred Cash Plan. Due to regulations which prohibit the accrual or payment of dividend equivalents on unvested share-based awards, the number of deferred share units awarded under the Restricted Share Unit Plan and Long-term Compensation Plan to Material Risk Takers is determined by applying a discount factor to the share price at grant (e.g., the closing price of TD Bank common shares on the TSX on the trading day immediately preceding the grant date) to reflect the absence of dividend equivalents throughout the deferral period.

To ensure that remuneration is aligned with risks, at maturity, all deferred remuneration awards (e.g., Restricted Share Units, Long-term Compensation Plan Units and Deferred Cash) are subject to a discretionary reduction to the value of outstanding awards in unusual circumstances prior to payout, based on consideration of risk outcomes during the deferral period.

Details regarding performance measurement, risk adjustment, and deferred remuneration can be found in TD's annual Management Proxy Circular found at the following site: <https://www.td.com/content/dam/tdcom/canada/about-td/pdf/td-investor-2024-proxy-en.pdf>

Annual incentive awards for Material Risk Takers are delivered through the Executive Compensation Plan (ECP), the Performance Compensation Plan (PCP) or the Employee Incentive Plan (EIP).

Executive Compensation Plan

Under the ECP, each executive has an individual remuneration target. At year-end, the aggregate pool of funds available to award as incentive remuneration is equal to the sum of the individual targets multiplied by the respective business performance factor.

For fiscal 2024, the key metrics used to determine the business performance factor include Net Income After Tax (NIAT), Customer Experience and Return on Tangible Common Equity (RoTCE) for the bank and for business segments as applicable. In addition, relative performance is evaluated against a peer group of companies on a comprehensive scorecard of financial and shareholder measures. The final business performance factor is subject to a discretionary risk adjustment that is approved by the TD HRC after considering performance against the bank's risk appetite.

To protect against conflict of interest, NIAT, Customer Experience and RoTCE results for executives in control functions are based entirely on TD's enterprise performance, not on the performance of TD Securities, TD Securities London or TDBEL.

Individual awards are based on an evaluation of a number of factors including individual performance against objectives, leadership, future potential, and an evaluation against a standard set of accountabilities regarding risk and control behaviours. Performance for TD Securities executives also considers a Risk and Control Scorecard of governance, control, and risk management behaviours in the determination of their annual incentive award. In addition, all Material Risk Takers have non-financial performance objectives that are considered as part of their year-end performance assessment in conjunction with the Risk and Control Scorecard.

Individual awards can be higher or lower than their variable incentive target multiplied by their applicable business performance factor (funds available). The sum of individual awards should not exceed the aggregate funds available under the plan on a global basis.

Performance Compensation Plan

Annual incentive awards for front office employees and other employees who directly support revenue generating positions are delivered through the Performance Compensation Plan (PCP), for which there is one global pool.

The PCP plan is a fully discretionary incentive plan, under which aggregate funding is allocated to individual participants after considering performance during the year, including any risk, control or other applicable conduct issues.

The aggregate pool is determined based on adjusted contribution to profit with modifiers based on TD's enterprise performance (based on the Executive Compensation Plan Corporate multiplier) and TD Securities Scorecard performance. The pool is also subject to a risk adjustment that is approved by the TD HRC after considering performance against the bank's risk appetite, as well as other discretionary adjustments (as approved by the TD HRC).

The approved global pool is allocated to senior business leaders by the President and CEO of TD Securities on a discretionary basis. Factors considered when allocating the pool include, but are not limited to, the following: business performance, strategic initiatives, risk management, and market levels of remuneration.

Senior business leaders are responsible for allocating their portion of the approved pool to the individual employees within their business. Individual award decisions are determined as a total remuneration award. They are discretionary and there are no formulae or explicit guidelines for making award decisions. Factors considered include, but are not limited to, the following: individual and business performance, teamwork, risk management, market environment, market levels of remuneration, and potential future contribution to the firm. To ensure appropriate consideration of non-financial performance, performance for PCP participants considers a Risk and Control Scorecard of governance, control, and risk management behaviours in the determination of their annual incentive award. In addition, all Material Risk Takers have non-financial performance objectives that are considered as part of their year-end performance assessment in conjunction with the Risk and Control Scorecard.

Employee Incentive Plan

Annual incentive awards for TD employees in support and control functions are delivered through the Employee Incentive Plan. Under the Employee Incentive Plan, each individual has an incentive target which is multiplied by a business performance factor as well as an individual performance factor. Similar to those of the Executive Compensation Plan, the key metrics under the plan include NIAT, and Customer Experience results for the bank and for business segments, as applicable. The Employee Incentive Plan also includes a discretionary adjustment to account for risk or other factors.

To protect against conflict of interest, NIAT and Customer Experience results for employees in control functions are based on TD's enterprise performance, not on the performance of TD Securities, TD Securities London or TDBEL.

Individual awards are based on an evaluation of a number of factors including individual performance against objectives. To ensure appropriate consideration of non-financial performance measures, performance for employees also considers a Risk and Control Scorecard of governance, control and risk management behaviours in the determination of their annual incentive award. In addition, all Material Risk Takers have non-financial performance objectives that are considered as part of their year-end performance assessment in conjunction with the Risk and Control Scorecard.

Awards to individual employees may be higher or lower than their funds available (i.e., their variable incentive target x their applicable business performance factor x their applicable individual performance multiplier). However, the sum of individual awards should not exceed the aggregate funds available under the plan.

Annually, the IRC reviews and approves the aggregate ECP, PCP and EIP awards, ensuring they are aligned with and support the current and future financial status and risk outcomes of TD Securities London. In addition, the TDBEL Remuneration Committee annually reviews and approves aggregate ECP, PCP and EIP awards for TDBEL employees, ensuring they are aligned with and support the current and future financial status and risk outcomes of TDBEL.

Link Between Remuneration and Performance

Risk Adjustments

Risk Adjustments to Variable Incentive Pools

Under all incentive plans, the IRC, the TDBEL Remuneration Committee and the TD HRC have the ability to reduce or cancel awards in the event of poor performance, significant risk related issues, or other unusual circumstances. To facilitate appropriate risk adjustments to incentive plans, the TD Chief Risk Officer presents an annual Enterprise Risk Appetite Scorecard to a joint session of the TD HRC and the TD Risk Committee of the TD Board of Directors. This process allows the TD HRC to appropriately consider risk when determining global incentive pools, and to ensure that remuneration is appropriately linked to the bank's risk-adjusted performance.

As there are no formal regional bonus pools, the IRC and the TDBEL Remuneration Committee review and approve the regional aggregate incentive awards for TD Securities London employees and TDBEL employees, respectively. Both Committees review a summary of the global plan outcomes for PCP, ECP and EIP, including a summary of the plan metric results and impact to the overall pool, as well as the outcome of the risk adjustment and/or discretionary adjustments made to the global pool calculations. This ensures the Committees are informed of the factors and considerations taken into account to determine the overall global pool (for PCP) and final business performance factors (for ECP and EIP).

In their review of regional aggregate incentive awards, the IRC and TDBEL Remuneration Committee also review the financial results for the fiscal year for the respective entities. This is accompanied by a risk commentary by the CRO, TD Securities Europe and Asia-Pacific (EAP) who assesses whether the business operated within the Risk Appetite for the region. This overall approach ensures that aggregate incentive awards are aligned with and support the current and future financial status and risk outcomes of the respective entities.

Individual Risk Adjustments

Performance for all TD Securities employees considers a scorecard of governance, control, and risk management behaviours as part of the performance assessment process. In addition, TD Bank titled executives are evaluated against a standard set of accountabilities regarding risk and control behaviours. Individual risk assessments are considered when year-end performance and remuneration decisions are made.

Local founded conduct risk events are reviewed and discussed at the UK Conduct Risk Committee (CRC). In addition, there is an enterprise-wide risk and control process, whereby material risk, control and misconduct events are identified and documented (with input from TD risk and control function heads) and then individual performance and remuneration impacts are considered. The IRC and TDBEL Remuneration Committee review the results from the risk and control process and approve any adjustments to individual remuneration for TD Securities London employees and TDBEL employees, respectively.

Misconduct and Compliance with Code of Conduct and Ethics

All employees are expected to act ethically and with integrity, and in a manner consistent with the bank's risk appetite. All variable incentive awards are subject to compliance with the Code of Conduct and Ethics and may be adjusted (including reduction, forfeiture or clawback as appropriate) in the event of misconduct, actions taken that are outside of the bank's risk appetite or other unusual circumstances as appropriate. Adjustments can be made to in-year remuneration, outstanding deferred compensation or awards paid.

Malus Adjustments

All deferred remuneration plans are subject to a discretionary reduction to the value of outstanding awards in unusual circumstances prior to payout.

For Material Risk Takers, the following criteria is used to identify situations that require further investigation to consider whether a reduction is warranted:

- The firm or the business unit suffers a material downturn in its financial performance;
- There is reasonable evidence of employee misbehaviour or material error; or,
- The firm or the relevant business unit suffers a material failure of risk management.

The criteria include situations where the employee participated in or was responsible for conduct which resulted in significant losses to the firm; and/or, failed to meet appropriate standards of fitness and propriety.

Discretionary malus adjustments to deferred remuneration will only be made after consideration of all applicable facts and circumstances, in alignment with the TD Securities UK Malus and Clawback policy.

The IRC and TDBEL Remuneration Committee review and approve all malus adjustments for TD Securities London employees and TDBEL employees, respectively.

Clawback

For Material Risk Takers, the clawback period applicable to their variable incentive awards is determined annually based on their Material Risk Taker category and dependent on whether the individual meets the criteria of "Higher Paid MRT" (as defined in the section, Deferral Requirements by Material Risk Taker Category) as outlined in the table below.

MRT Category	Higher Paid MRT	Not Higher Paid MRT	
	Clawback (Non-Deferred and Deferred)	Non-Deferred Incentive	Deferred Incentive
PRA Regulated Senior Management Function (SMF)	7-Years (can extend to 10-Years)	1-Year	6-Years
FCA Regulated SMF (solely)	7-Years (can extend to 10-Years)	1-Year	6-Years
Senior Staff / Management (not SMF) ¹	7 Years	1-Year	5-Years
All other MRTs	7 Years	1-Year	5-Years

¹ Applies to individuals who do not perform a Senior Management Function and who meets the following criteria set out in the Remuneration Part of the PRA Rulebook: criteria in 3.1(1)(a) or (b); or (ii) whose professional activities meet the qualitative criteria set out in 3.2A(1), 3.2A(2) or 3.2A(5).

For Material Risk Takers, clawback is considered where there is evidence of employee misbehaviour, misconduct or material error; and/or, material failure of risk management. The criteria include situations where the employee participated in or was responsible for conduct which resulted in significant losses to the firm; and/or, failed to meet appropriate standards of fitness and propriety.

For Higher Paid Material Risk Takers who perform a PRA or FCA-designated Senior Management Function, TD can extend the clawback period from 7 years to at least 10 years from the award date where, (i) TD has commenced an investigation into facts or events which it considers could potentially lead to the application of clawback; or (ii) TD has been notified by a regulatory authority (including an overseas regulatory authority) that an investigation has been commenced into facts or events which TD considers could potentially lead to the application of clawback.

Clawback of previously awarded incentive awards will only be made after consideration of all applicable facts and circumstances, in alignment with the TD Securities UK Malus and Clawback policy.

For employees who are not Material Risk Takers, all variable compensation awards made under ECP and PCP are subject to clawback in the event of a material misrepresentation resulting in the restatement of financial results, or in the event of a material error. In those circumstances, clawback may be applied to some or all of any variable remuneration awarded or paid within a 36-month look-back period.

In addition, the TD HRC, the IRC and the TDBEL Remuneration Committee have the discretion to apply clawback to any award, granted or paid, in the event of employee conduct constituting cause for discipline or dismissal, including, but not limited to:

- Breaching the TD Code of Conduct and Ethics;
- Breaching employment or post-employment duties or obligations to TD;
- Any behaviour that could have a negative impact on the reputation, market performance or financial performance of TD.

In the situations above, the TD HRC, the IRC and the TDBEL Remuneration Committee have the discretion to apply clawback to some or all variable remuneration awarded or paid to groups of individuals or to specific individuals as appropriate after a comprehensive investigation of the circumstances.

The IRC and TDBEL Remuneration Committee review and approve all clawback adjustments for TD Securities London employees and TDBEL employees, respectively.

Remuneration Awarded to Material Risk Takers

The following tables summarise the total remuneration awarded to TD Securities London Branch Material Risk Taker employees and TDBEL Material Risk Taker employees in respect of the performance year ending October 31, 2024.

Table 1 - Aggregate Remuneration

	TD Securities London Branch	TDBEL
Number of Material Risk Takers ¹	92	21
2024 Remuneration (in £MM) ²	47.9	9.7

Notes

¹ Reflects Material Risk Takers as at October 31, 2024.

² Remuneration converted into GBP based on October 2024 FX rates published on the European Banking Authority website.

Table 2 – Fixed and Variable Remuneration

The figures in the table below are split into “Senior Management” and “Other MRTs” according to the following definitions:

- Senior Management: includes employees who perform a senior management function under the PRA / FCA Senior Managers Regime as well as Management Committee members.
- Other MRTs: other employees whose activities have a material impact on the risk profile of the firm.

(in £MM)	TD Securities London Branch		TDBEL	
	Senior Management	Other MRTs	Senior Management	Other MRTs
Number of Material Risk Takers ¹	12	80	11	10
Fixed Remuneration ²	4.3	24.9	3.8	2.3
Variable Remuneration	2.6	16.2	2.3	1.3
Non-deferred Cash	0.7	4.9	0.6	0.4
Non-deferred Share-based	0.7	4.4	0.6	0.4
Deferred Cash	0.6	3.3	0.5	0.2
Deferred Share-based	0.6	3.5	0.5	0.3
Total Remuneration	6.8	41.1	6.1	3.6

Notes

¹ Reflects Material Risk Takers as at October 31, 2024.

² Remuneration converted into GBP based on October 2024 FX rates published on the European Banking Authority website.

Table 3 – Deferred Remuneration¹

The following table summarises deferred remuneration outstanding, awarded and paid to those employees identified as Material Risk Takers (effective October 31, 2024) during fiscal 2024.

<i>as at October 31, 2024 (in £MM)</i>	TD Securities London Branch		TDBEL	
	Senior Management	Other MRTs	Senior Management	Other MRTs
Total Outstanding (A + B)				
Deferred Cash	1.3	5.2	1.2	0.5
Deferred Share-based	2.8	8.4	2.7	0.6
Outstanding - Unvested (A)				
Deferred Cash	1.3	5.2	1.2	0.5
Deferred Share-based	2.6	7.8	2.5	0.6
Outstanding - Vested (B)				
Deferred Cash	-	-	-	-
Deferred Share-based	0.2	0.6	0.2	0.0
Vested in 2024 (Nov 1, 2023 to Oct 31, 2024)				
Deferred Cash	0.2	1.3	0.2	0.1
Deferred Share-based	1.7	2.4	1.5	0.1
Awarded in 2024 (Nov 1, 2023 to Oct 31, 2024)				
Deferred Cash	0.4	2.4	0.4	0.2
Deferred Share-based	0.5	3.7	0.5	0.2
Paid in 2024 (Nov 1, 2023 to Oct 31, 2024)				
Deferred Cash	0.2	1.3	0.2	0.1
Deferred Share-based	1.8	3.0	1.5	0.2

Notes

¹ Outstanding deferred remuneration is valued as at October 31, 2024 using the closing share price of TD on the Toronto Stock Exchange of C\$76.97.

Table 4 – Total Remuneration Exceeding EUR 1.0MM

In fiscal 2024, nine TD Securities London Branch Material Risk Takers earned between EUR 1.0MM to 2.5MM. Two of these individuals are also TDBEL Material Risk Takers.

Table 5 – Guaranteed, Sign-on and Severance Payments in 2024

In fiscal 2024, two TD Securities London Branch Material Risk Takers received guaranteed awards (including sign-on awards). One of these individuals is also a TDBEL Material Risk Taker.

Five TD Securities London Branch Material Risk Takers received a severance payment in fiscal 2024. To preserve confidentiality of these individuals, the value of severance will be disclosed confidentially to the regulatory authority, upon request.
